## ***Volunteers Needed for Shaw Creek Watershed Studies***

Do you enjoy spending time outdoors and care about local area watersheds? We are looking for water-quality volunteers to collect water quality and hydrologic data in Shaw Creek and adjacent watersheds.

**Field Work Includes:** Using a water-quality meter collect parameters such as pH, temperature, and conductivity of the stream. Taking photographs of changing hydrologic conditions. Visiting hydrologic data collections and assisting hydrologists and technicians with fieldwork.

For project information visit the following website: [www.tanana-watershed.org](http://www.tanana-watershed.org)

Please call Michael Lilly at (907) 479-8891, email [mlilly@gwscientific.com](mailto:mlilly@gwscientific.com), or Jan Dawe (907) 457-8453 or stop by the Alaska Boreal Forest Council for more information.
